National Intelligence Officers

28 May 1976

MEMORANDUM FOR: Mr. John Kerry King
Director, OGCR

VIA : Deputy Director for Intelligence

SUBJECT : Commendation for [REDACTED]

STATINTL

1. At the Director's morning meeting on 26 May, Mr. Bush paid special tribute to the quality of the graphics support he had received for his world-wide briefing of the Intelligence Subcommittee of the Senate Armed Services Committee the previous day. The continuing high quality of graphics work was also evident in the DCI's briefing for the Joint Economic Committee on 24 May.

2. The above are but two specific examples of the excellent responsive support which the members of the Cartography Division have provided to the National Intelligence Officers. The lion's share of credit for the briefing graphics goes to [REDACTED] and those who worked with him in designing and producing the vu-graphs, including last minute revisions. I would like to express our appreciation not only to [REDACTED] but to all of those in your office who have supported us in such an outstanding manner.
